General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC this 31st day of July 1992.

Alan L. Moss,
Director, Division of Wage Determinations.

Pension and Welfare Benefits Administration

Advisory Council on Employee Welfare and Pension Benefit Plans; Meeting

This Individual Participant Rights Working Group was formed by the Advisory Council to study issues relating to Individual Participant Rights for employee benefit plans covered by ERISA.

The purpose of the September 8 meeting is to take testimony from the American Institute of Certified Public Accountants. The Working Group will also take testimony and or submissions from employer representatives, employer representatives and other interested individuals and groups regarding the subject matter. In addition, the Working Group will review and discuss past testimony presented and begin deliberation regarding possible recommendations to the Advisory Council.

Individuals, or representatives of organizations wishing to address the Working Group should submit a written request on or before September 1, 1992 to William E. Morrow, Executive Secretary, ERISA Advisory Council, U.S. Department of Labor suite N-5677. Oral presentations will be limited to ten minutes, but witnesses may submit an extended statement for the record.

Organizations or individuals may also submit statements for the record without testifying. Twenty (20) copies of such statement should be sent to the Executive Secretary of the Advisory Council at the above address. Papers will be accepted and included in the record of the meeting if received on or before September 1, 1992.

Signed at Washington, DC, this 4th day of August, 1992.

David George Ball,
Assistant Secretary, Pension and Welfare Benefits Administration.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 92-45]

National Environmental Policy Act; Finding of No Significant Impact; Mars Observer Mission

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Finding of No Significant Impact.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. Sec. 4321 et seq.), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), and NASA's Procedures for Implementing NEPA (14 CFR subpart 1216.3), NASA has made a Finding of No Significant Impact (FONSI) with respect to the planned Mars Observer mission. The Mars Observer spacecraft and its Transfer Orbit Stage will be assembled and integrated at the Kennedy Space Center and then launched from Cape Canaveral Air Force Station, Florida. The launch vehicle will be a Commercial Titan.

DATES: Comments must be in writing and received no later than September 8, 1992.

ADDRESSES: Comments should be addressed to Dr. William L. Piotrowski, NASA Headquarters, Code SL, Two Independence Square, SW., Washington, DC 20546. The Environmental Assessment (EA) prepared for the Mars Observer mission which supports this FONSI may be reviewed at:

(a) NASA Headquarters Information Center, room 126, 800 Independence Avenue, SW., Washington, DC 20546
(c) NASA Information Center, Dryden Flight Research Facility, P.O. Box 273, Edwards, CA 93523.
(d) NASA Information Center, Goodard Space Flight Center, Greenbelt, MD 20771.
(e) NASA Information Center, Johnson Space Center, Houston, TX 77058.
(f) NASA Information Center, Ames Research Center, Moffett Field, CA 94035.
(g) NASA Information Center, Langley Research Center, Hampton, VA 23665.
(h) NASA Information Center, Lewis Research Center, 21000 Brookport Road, Cleveland, OH 44135.
(i) NASA Information Center, Marshall Space Flight Center, Huntsville, AL 35812.
(j) NASA Information Center, Stennis Space Center, MS 38924.
(k) NASA Information Center, Jet Propulsion Laboratory, NASA Resident Office, 4800 Oak Grove Drive, Pasadena, CA 91109.
(l) NASA Information Center, Wallops Flight Facility, Wallops Island, VA 23337.

A limited number of copies of the EA are available for persons wishing a copy by contacting Dr. Piotrowski.

The Transfer Orbit Stage, used to inject Commercial Titan, which is a growth of Titan configurations, the manned mission is not required to Observer mission) and alternative large velocity changes and the other for where it will collect global observations. The Mars Observer mission will deliver a spacecraft platform to a low altitude near-polar orbit around Mars where it will collect global observations of basic geological, geophysical, and climatological processes of the planet. The spacecraft will carry a complement of eight science instruments that will be used to collect data on the climatology, surface composition, topography, gravity field, and magnetic field of Mars. The launch vehicle for the mission will be a Commercial Titan, which is a growth version of the existing Titan 34D design. The Transfer Orbit Stage, used to inject the spacecraft on a trajectory to Mars, utilizes solid propellants. The spacecraft itself will have two chemical propellant systems, one for maneuvers requiring large velocity changes and the other for orbit maintenance. The spacecraft's electric power will be provided by rechargeable nickel-cadmium batteries and solar array panels.

Alternatives considered include the no action alternative (i.e., no Mars Observer mission) and alternative launch vehicles, including the Space Shuttle, other Titan vehicles, Deltas and Atlases. Only larger Titans and the Space Shuttle have the capacity needed for the Mars Observer mission. A manned mission is not required to launch the Mars Observer spacecraft. Among Titan configurations, the Commercial Titan is the most appropriate size launch vehicle. Termination of the mission would result in the loss of important and substantial scientific knowledge.

Impacts to the human environment associated with this mission arise almost entirely during the launch of the spacecraft by the Commercial Titan. There will be air emissions during the launch, with carbon monoxide, hydrogen chloride, and aluminum oxide particulates as the primary pollutants. Short-term water quality and noise impacts will occur and there may be short-term impacts on wetlands, and animal and plant life. The mission will not affect cultural resources or floodplains. The level and scope of environmental impacts associated with the Commercial Titan launch vehicle are within the envelope of impacts that have been addressed in previous EA's and FONSI's concerning other Titan configurations. No significant new circumstances or information relevant to environmental concerns associated with the launch vehicle have been identified which would affect the earlier findings. On the basis of the Mars Observer EA, NASA has determined that the environmental impacts associated with the mission will not individually or cumulatively have a significant effect on the quality of the human environment. Therefore, an environmental impact statement is not required.

Dated: July 31, 1992.

Benita A. Cooper,
Associate Administrator for Management Systems and Facilities.

NATIONAL COMMISSION ON SEVERELY DISTRESSED PUBLIC HOUSING

Meeting

AGENCY: National Commission on Severely Distressed Public Housing.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public law 92-463, as amended, the National Commission on Severely Distressed Public Housing announces a forthcoming meeting of the Commission.

DATES: Monday, August 10, 1992, 11 a.m.

FOR FURTHER INFORMATION CONTACT: Carmelita Pratt, Administrative Officer. The National Commission on Severely Distressed Public Housing, 1111 18th Street, NW., #606, Washington, DC 20036 (202) 275-6933.

TYPE OF MEETING: Open.

Due to scheduling difficulties, this notice could not be published 15 days prior to this meeting as required by Federal Advisory Committee Act.

Carmelita R. Pratt,
Administrative Officer.

NATIONAL SCIENCE FOUNDATION

Meeting

The National Science Foundation announces the following meeting:

Name: Interagency Arctic Research Policy Committee.

Date and Time: Thursday, August 27, 1992, 2 p.m.—3:30 p.m.

Place: National Science Foundation, room 540, 18th and G Street, NW., Washington, DC.

Type of Meeting: Closed. The meeting is closed to the public because future budget and program issues will be discussed.

Contact Persons: Charles E. Myers or Noel Broadbent, Division of Polar Programs, room 627, National Science Foundation, Washington, DC 20550, Telephone: (202) 357-7817.

Purpose of Committee: The Interagency Arctic Research Policy Committee was established by Public Law 98-373, the Arctic Research and Policy Act, to survey arctic research, help set priorities for future arctic research, assist in the development of a national arctic research policy, prepare an integrated multi-agency budget request for arctic research, develop a plan to implement national arctic research policy, and simplify cooperation in and coordination of arctic research.

Proposed Agenda Item: Discussion of proposed U.S. arctic research related to radioactive and other environmental pollution in the Arctic Region of the Former Soviet Union.

Public Participation: Committee meetings are not public hearings and will not normally receive verbal comments from the public unless specifically invited by the Committee. Persons invited to address the Committee will be limited to 5 minutes each. To address the Committee, submit a proposed statement. If the statement is relevant and appropriate to the agenda at that particular meeting, the Committee will invite you to present your statement. The texts of statements shall not exceed 5 double spaced typed pages each.

Charles E. Myers,
Head, Arctic Staff, Division of Polar Programs.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341]

Detroit Edison Co. Fermi Nuclear Plant, Unit 2; Receipt of Petition for Director's Decision Under 10 CFR 2.206

Date and Time: Thursday, August 27, 1992, 2 p.m.—3:30 p.m.

Place: National Science Foundation, room 540, 18th and G Street, NW., Washington, DC.

Type of Meeting: Closed. The meeting is closed to the public because future budget and program issues will be discussed.

Contact Persons: Charles E. Myers or Noel Broadbent, Division of Polar Programs, room 627, National Science Foundation, Washington, DC 20550, Telephone: (202) 357-7817.
